

Name: Deekshitha

Semester: 3rd Semester

Branch: B .Tech (CSE->CSIT)

Bio: I am a Computer Science student passionate about programming and problem-solving. I enjoy working with C in VS Code, exploring data structures, and collaborating on GitHub projects.

Projects from Activities 1–4:

- **Hello World Repository:** My first GitHub repo created during VS Code setup.
- **Pair Programming Collaboration Log:** Documented teamwork using Git Lens and Live Share.
- **Leet Code Solutions Repository:** Contains my solutions and progress on problem-solving tasks.

Skills:

- C programming and debugging in VS Code
- Git and GitHub workflow
- Data structures and algorithms practice

Goal: Earn at least a 3-star Hacker Rank badge to strengthen my portfolio.

Prompt-1:

Give prompt about myself like it should contain all skills, content about me like am good at c , and prompt should be in professional way and should contain all my projects like hello world, leet code, line editor give prompt for this

Build a one-page personal portfolio blog.

Sections: About, Projects, Skills, Contact.

Tone: Professional and approachable.

Style: Clean layout, light background, accent colour blue.

Content:

- About: I am a Computer Science student with strong interest in programming and problem-solving. I enjoy working in C, debugging in VS Code, and exploring data structures. I am motivated to continuously improve and collaborate on meaningful projects.

- Projects: Hello World repository, Leet Code solutions repository, Line Editor project. Include links to my GitHub repos.

- Skills: C programming, debugging in VS Code, Git/GitHub workflow, data structures and algorithms practice.

- Goal: Strengthen my portfolio by achieving a 3-star Hacker Rank badge.
- Contact: Provide links to my GitHub and LinkedIn profiles.

Prompt-2:

give one page prompt of my bio that I have provided before it should contain all my skills, about me, it should be clean and neat and it includes projects what I have done in git hub

AI:

Build a one-page personal portfolio blog.

Sections: About, Projects, Skills, Contact.

Tone: Professional but approachable.

Style: Clean layout, light background, accent colour blue.

Content:

- About: Vijaya Lakshmi, 3rd Semester B. Tech CSE, short bio.
- Projects: Hello World repo, Pair-programming log, Leet Code solutions repo (with links).
- Skills: C programming, debugging in VS Code, Git/GitHub workflow, data structures.
- Goal: Earn a 3-star Hacker Rank badge.

Correction:

It didn't add link instead of link it just gave project/repo names here where I made changes where any can approach to my git hub and they can view what I did .

Prompt-3:

Give prompt with that should contain link of my projects

AI:

Build a one-page personal portfolio blog.

Sections: About, Projects, Skills, Contact.

Tone: Professional but approachable.

Style: Clean layout, light background, accent colour blue.

Content:

- About: [Your Name Here], [Semester/Branch Here]. Short bio placeholder text.

- Projects: Hello World repository (first GitHub repo created during VS Code setup), Pair-programming collaboration log (documented teamwork using Git Lens and Live Share), Leet Code solutions repository (contains solutions and progress on problem-solving tasks). Include working links to GitHub repos:

[https://github.com/\[username\]/hello-world](https://github.com/[username]/hello-world)

[https://github.com/\[username\]/pair-programming-log](https://github.com/[username]/pair-programming-log)

[https://github.com/\[username\]/leetcode-solutions](https://github.com/[username]/leetcode-solutions)

- Skills: C programming, debugging in VS Code, Git/GitHub workflow, data structures and algorithms practice.

- Goal: Earn a 3-star Hacker Rank badge.

- Contact: Link to GitHub profile [https://github.com/\[username\]](https://github.com/[username])

Correction: It just provided names of my repos but I want links directly to used in prompt so It is easy to write the code of myself or bio portfolio.
